

# IDIV

## SYN 40 AC

Appearance	brown powder
Constitution	naphtalensulphonic dispersing agent
pH	7-7,5

### Method of use

**SYN 40 AC** is a powder easily soluble also in cold water. It has a good dispersion power and it makes easier the penetration of veg extracts. Thanks to its compatibility with anionic dyes it is widely used as auxiliary in dyeing the chrome leather, favouring the equalization of the shades.

It is advisable to use **SYN 40 AC** in a ratio of 2-3% in very light colours in order to get uniformity and equalization of dyeing. In middle tones it is advised to use 0.5-1.0% on the shaved weight and adding it into the drum 15' before starting the dyeing.
